### THE COVER FLOWER C. JAPONICA 'SANDY SUE'

'Sandy Sue' is a chance japonica seeding that was developed by Caryll W. Pitkin of San Marino, California. It is being propagated by Al and Vera Parker in their Redwood Empire Camellias nursery in Sebastopol, California and Wilkes Nursery in Moultrie, Georgia. The peony form white flower is 5 inches in diameter, not gibbed, and has heavy textured wavy petals. It is named for the Pitkin's daughter-in-law Sandy Sue Pitkin.
